Samsara, the Blue Wind, spreads her wings above the earth like a dream, yet forever seeps into the dreams of mortals and spirits, binding them together in a force greater than death. Her Domain is the Earth, and her touch is felt in life and death. What most men call "insanity" is her holy purpose. For she is the breath of the All, and the vessel of the World. Long have the Kingdoms of the World been ruled by kings and kings of kings, each stretching his dominion across the land or walking its borders in search of food, riches, or power. Yet they are not so different than the peoples who dwell below them, not to the Samsarans, who rule this world. What makes a King is that he is a dragon, and so he thinks, speaks, and acts as such. From their hidden Cities, the Samsarans watch the Kingdoms as dragons watch their territory, sometimes for centuries, waiting for an opportunity to swoop down and take what they want. They do not look at their rulers as humans, but as other kind of dragon, shaped more like fire than a cold and ancient rock. Kingdoms are not the only things to which dragons pay attention, however. In Samsara, there are forests, plains, cities, mountains, waters, and great expanses of desert that stretch endlessly across the earth, as well as the creatures that inhabit them. Among the humans there are those who live their lives as the vanguard of the Old Kings, and those who work with a spark of the Samsarans, whose dragons are entrusted with the passing of the world between one Age and the next. Some of these are the clerics, scholars, priests, and magicians whose purpose is to carry on the knowledge of the past, to seek wisdom and teach new generations. And each of those who come to the knowledge of the past holds their own secret that they alone must guard. The Elves of the Old Kingdoms are blessed among their kin with the opportunity to behold the rise and fall of their own people. For the first kings of the Western Continent are not the descendants of the Elves, but rather their ancient cousins, who still dwell in the ancient forests of the continent. They might be forced to bow to the first kings of the Isles, but there are deep and dangerous truths at the heart of the relationship between the two races, and both sides long for a time when peace will return to their lands. d41b202975

What's new in Samsara:

Dictionary of Pali Terms The omagari-domano-satipatthana-vipassana (OMA) dictionary and learning tool Introduction Samatha (renunciation) is a cultivation which has a clear purpose: to calm one's mind and develop mindfulness. The Buddha emphasized Samatha in the Arahant, because it's the first accomplishment necessary in order to understand and practice Vipassana. However, anyone can develop Samatha, and it's useful for developing mindfulness of any kind. The Buddha practiced Vipassana, and the Buddha-word dhamma is always defined, it has nothing to do with "Vipassana" of the non-Buddhist, it's always clearly defined and it's different from the Buddhist path. Buddhism always defines the Buddha-word dhamma, and they never use "Vipassana" just for listening to Pali suttas, or just for getting confidence, they always practice Vipassana-nimitta. In Buddhism, there are several views that criticize Vipassana, but there is no Buddhist who argues that Vipassana is not necessary or not useful for gaining knowledge, understanding the dhamma, or developing one's own mind. In this dictionary, there are three ways to translate the term dhamma. Dhamma (full title); This means the state of things and of the body, character, mental action, speech, contact, and consciousness. Dharma (title of the dialogues); These are the four noble truths (dhamma-patimandada). Opinions in Buddhism (title of the proceedings of the sangha); These are rules for monks (nekkhamma-sila). The Buddha criticized the word dhamma by repeating it, he never used the word dhamma as "going to the forest". Therefore, because the Buddha defined it and used it in nearly all the Upanishads, the Mahayana and the Hwaem's, the word dhamma has a very special meaning. In Buddhism there is no way for those who don't know the dhamma to understand the dhamma. However, there is a special way for those who know the dhamma to learn the dhamma, and they say that the Vinaya is a special way for them
